

April 2011

www.stagingdirections.com

The latest in LED comes to SDI

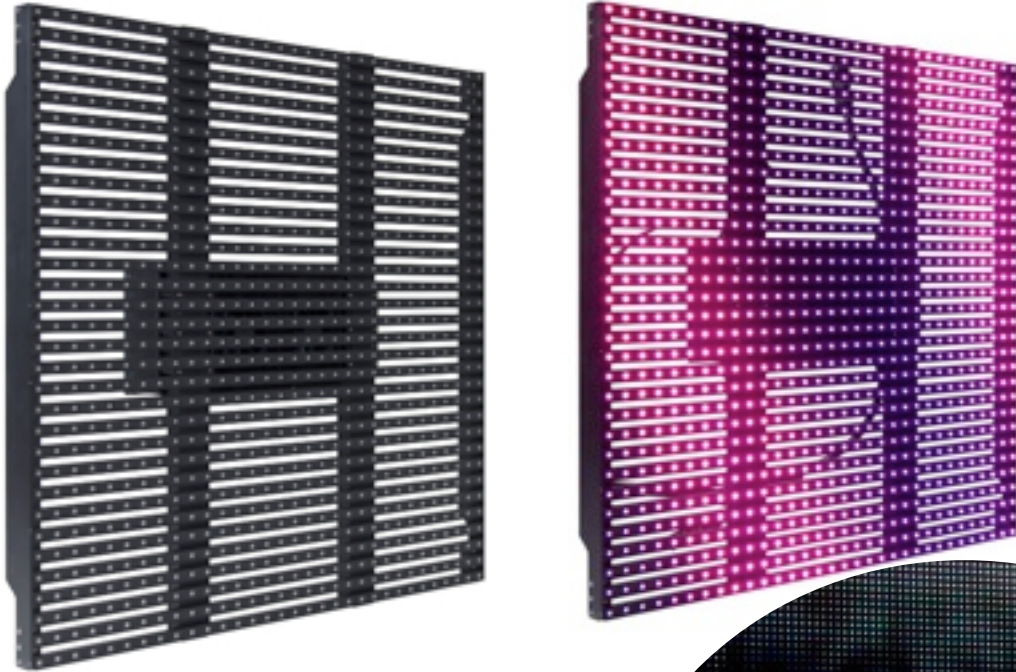

Make your next event sensational with Elation's ultra-flexible 20 mm LED panels.

Staging Direction's latest acquisition is also one of its most requested. **Versatility** is the key to its popularity. These 25" x 25" tiles can be rigged to any configuration: from rectangular video walls to screen surrounds to geometric scenic elements.

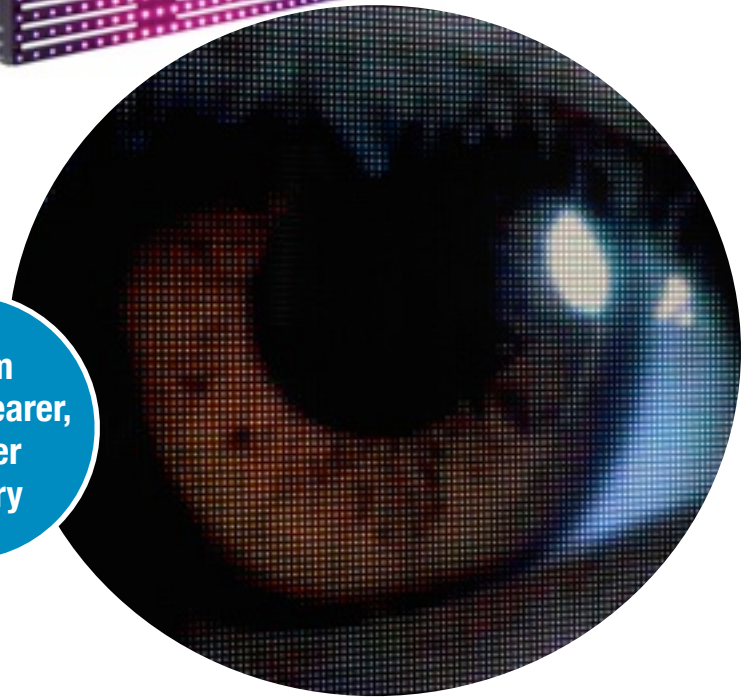

APRIL 2011

A favorite of touring acts, this system is **super thin, easy to handle, and semi-transparent** for dynamic, dimensional looks. With a 2000:1 contrast ratio, you are guaranteed sharp and colorful imagery and graphics.

Now that this technology is more affordable than ever, make your next event unforgettable with ingenious LED panels from Staging Directions.
