## VEGAS, BABY!

Staging Directions hits a high note on The Strip.

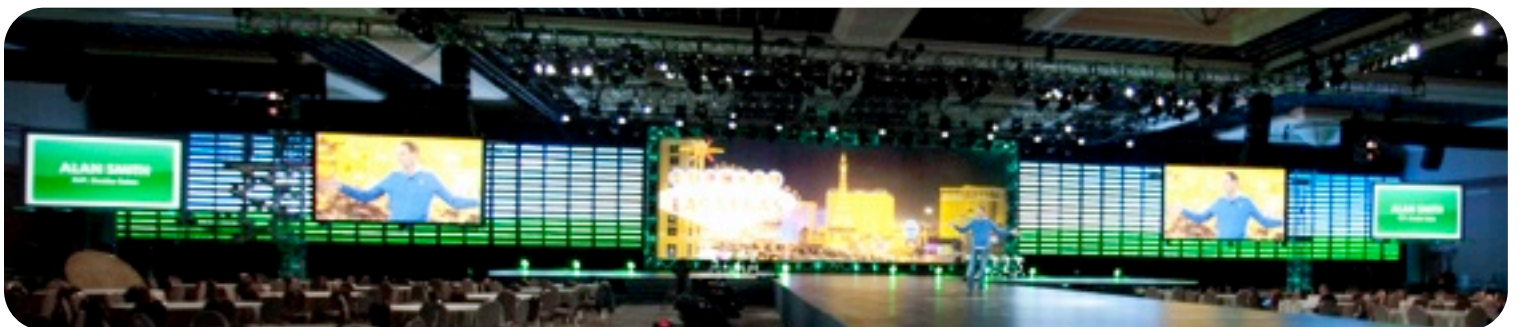

For the fifth year in a row, Staging Directions partnered with Gray Matter Productions to stage a memorable event for an on-line national advertising company.

This year, the Mandalay Bay Casino in Las Vegas was the host for their extravagant event. SDI used its new Christie 18K HD projectors to fill the 20'x60' center screen with crystal clear imagery. Four large side screens, two resembling highway exit signs and two looking like billboards, flanked the center screen.

The stage was enormous: 96' wide with a 100' thrust, illuminated with more than 100 moving lights supported on 1500 feet of truss with 80 half-ton motors. 600 Versa-Tubes created two 79' wide walls of high-tech artistry.

Don't gamble with staging companies. Contact Staging Directions to see how we can make your next show a success.

# February 2010

# DINNER & A SHOW

No stranger to great entertainment, Staging Directions booked and managed a host of great acts.

International recording artist Natasha Bedingfield; a local custom-choreographed dance troupe; and the outstanding Quest Crew, winners of "America's Greatest Dance Group," blew away the audience.
