STAGING DIRECTIONS SHOWS OFF THE LATEST IN HD projectors, cameras, hardware and software – we have it all

Ask for HD done right, and Staging Directions will proudly fire up its newest Christie Roadster HD18K projectors at your next event.

These powerhouses of digital projection feature a native 1920x1080 HD resolution for crisp images, perfect color, and outstanding video. And 18,000 lumens means unparalleled color and clarity.

Completing the package are the Christie Twist™ for seamless edge-blending on any surface - flat, curved or cylindrical, and the AutoStack™ for automatically calibrating and blending multiple projector displays.

Look for our March 2010 newsletter for our latest HD cameras.

Please visit our website for additional photos and let us know how we can assist you on upcoming events.
